1.6 Scoring:

1.6.1 *Points system.* Points will be awarded to competitors who complete at least one competitive run, clearly displaying the **GTM** decals.

Points will be awarded as a percentage of the best in classes' time, to two decimal places, with the best in class being awarded 100 points. For example, if the best-in-class time is 154.36 seconds and the championship contender records 155.22 seconds, they will score 99.44 points (that is $100 - 0.56$, where the 0.56 is the percentage over the class winning time).

Where there are fewer than 4 competitors in a class, based upon those who practise, points will be deducted as follows: 3 in class deduct 2 points, 2 in class deduct 4 points and 1 in class deduct 6 points.

A competitor's best 8 scores will count towards the overall and class awards.

Where events run to a different class structure, the results will be adjusted and scored according to the competitor's registered AEMC or ASEM Championship class.

A competitor may only score points in the class(es) in which he/she has registered for the championship. A change of class is allowed upon written notification to the championship co-ordinator, but all points scored in a previous class will be wiped out. Points will only be awarded for events taking place after the notification is received.

The championship results will be maintained by the co-ordinator, who will issue periodic updates and issue all registered contenders with final championship positions at the end of the season.

1.6.2 *Resolving Ties.* In the event of a tie for any positions, the number of counting rounds will be increased until the tie is resolved. If the tie cannot be resolved when all championship rounds are counted, then the competitors will be deemed to have finished equal.

1.6.3 Championship Points Appeals must be lodged within 7 days of first official publication (NCR 2.5.2).

1.7 Awards

1.7.1 Awards will be presented as follows:

<u>Overall Champion</u>	The Pat Brown Memorial Trophy
<u>Runner-Up</u>	Trophy
